

# Get Connected with Collier Mobile Tech™

## Technicians can:

- perform their jobs wirelessly;
- search technical diagrams;
- review service videos;
- transmit info back to the office via a camera for expert service advice;
- make sales presentations using Powerpoint or video to customers;
- accept credit card payments; and
- print invoices and secure customer signatures.

## Contractors can:

- dispatch orders directly to the field;
- display maps/directions to the tech;
- get immediate feedback and payment information;
- save time in the field and bill at least one more hour per day;
- track time per call;
- bill 20-25% more than before;
- improve sales presentations;
- integrate sales and calls with one touch processing; and
- train and coach techs via e-mail and camera integration.

Accounting interfaces  
Hand writing recognition  
Windows programs  
Portability & ruggedness  
Inventory control  
Wireless integration  
Little paperwork/data entry
